Reports don't reduce risk.
Decisions do.

OUR LEADERSHIP: THE FOUNDERS OF MODERN CYBERSECURITY ADVISORY

Quadrum was founded by two globally recognized Fortune 20 cybersecurity executives who ran global incident response, offensive testing and enterprise risk at scale.

25+	years on average of cybersecurity experience	**$500M**	ARR cybersecurity business managed	**1,000+**	person cybersecurity organization	**#1**	cybersecurity research reports sponsored (*)

OUR MISSION: OPTIMIZING YOUR CYBER INVESTMENTS

We optimize cybersecurity investments by focusing resources where they deliver the greatest reduction in risk and the strongest business value.

WHY QUADRUM?

We provide clear, actionable guidance tailored to your business, without selling standalone products, recommending single vendors, or being influenced by any agenda but yours.

WHY WE STARTED QUADRUM CYBER

Assessment reports collect dust while threats evolve at the speed of AI, cyber security incidents continue to increase, yet organizations keep funding the wrong cyber initiatives.

WHO WE HELP AND HOW

Independent advisory that connects the war room to the executive suite, so organizations **act on findings while they still matter**.

DIFFERENTIATORS

- Your agenda, not the vendor's
- Practitioner-led
- Outcomes, not reports
- War room to boardroom
- Backed by landmark research

(*) Verizon Data Breach Investigations Report and Verizon Payment Security Report

Advisory-first cybersecurity for enterprise leaders making high-consequence decisions.
